Even Angels Ask A Journey

Even Angels Ask: A Journey to Islam in America. Drawing on his personal experiences as a Muslim, Professor Lang discusses conflicts between faith and reason, obstacles in converting to Islam, extremism within some Muslim communities and future outlook for American Muslims.

Even Angels Ask: A Journey to Islam in America by Jeffrey Lang

A relatively short yet dense book (230 pages), "Even Angels Ask" was not only a journey through Islam in America, but a journey through Islam for myself. Even if I'm reading it 18 years after it has been written (it's almost as old as I am!), I was still able to greatly relate to it. In fact, I believe that we live today in a world that is more "Americanized" and globalized than ever before, which makes the "Journey to Islam in America" key to journeys to Islam all over the world.

Drawing on his personal experiences as a Muslim, Professor Lang discusses conflicts between faith and reason, obstacles in converting to Islam, extremism within some Muslim communities and future outlook for American Muslims.

In this book Professor Lang gives a very personal account of his search for God when he found out that his inherited religious beliefs could no longer answer his questions. A chance encounter led him to Islam. But now, how does he adapt to his new community, its beliefs and lifestyle?

In recent years, world events have trained a harsh spotlight on the Muslim religion and its adherents. The misunderstanding and bias against Muslims in the United States not only persists but has deepened. In this detailed study of an immigrant community in Chicago, Garbi Schmidt considers the formation and meaning of an "American Islam." This vivid portrait of the people and the institutions that draw them together contributes to the academic literature on ethnic and religious identity at the same time as it depicts an immigrant community's struggle against bias and forces that threaten its cohesion. Chicago has long been home to Muslim immigrants from numerous countries in the Middle East and South Asia. For some members of

these groups religion carries more weight than ethnic identity in the American context and enables them to form and participate in a broad spectrum of institutions that support their religious and social interests. Schmidt offers her observations of the schools and student associations that serve young Muslims as well as the social, religious, and political organizations that serve adults. By looking at the ways in which children, adolescents, and adults come together in these institutions, she is able to show the dynamic process in which a variegated American Muslim identity takes shape. Readers will come away from this book with a better understanding of the ideological and cultural differences among Muslims and a greater appreciation of their struggles in becoming Americans. Author note: Garbi Schmidt is a senior researcher and coordinator of the ethnic minorities initiative at the Danish National Institute of Social Research, Copenhagen.

Wrestling with Our Inner Angels is Nancy Kehoe's compelling, intimate, and moving story of how she brought her background as a psychologist and a nun in the Religious of the Sacred Heart to bear in the groups she formed to explore the role of faith and spirituality in their treatment — and in their lives. Through fascinating stories of her own spiritual journey, she gives readers of all backgrounds and interests new insights into the inner lives of the mentally ill and new ways of thinking about the role of spirituality and faith in all our lives.

Patricia Buckley is a down-to-earth mystic — gentle, funny and practical. In the last decade, through her joyous embrace of the angels in her life, she has been able to give hope to countless wounded souls who have come to her seeking guidance. From as early as she can remember, Patricia took for granted that she could speak to angels and dead people. And though her childhood was blighted by poverty, neglect and abuse, the spirit world made her feel secure and cherished. However, after many tough years — during which she was committed to a mental ward, was nearly killed by an abusive boyfriend and eventually became homeless — she gave up on that part of her life. Patricia found love in a good marriage and joy in the birth of her children. And yet for twenty years she remained fragile and dependent on tranquillisers. That was until a chance encounter woke up her hidden spiritual energies and revived her passion for living. The time had come to share her gifts with the world. Now, Patricia shares her story in *My Journey with the Angels* — a heart-breaking memoir of a Dublin childhood, a moving account of how she came to accept her extraordinary gifts, and an inspirational guide — full of examples from her life and work — to the wisdom of the angels.

In this companion to *Initiation in the Aeon of the Child*, now available in paperback, author J. Daniel Gunther provides detailed and cohesive analysis of the two major spiritual crises in the career of the aspirant in the Aeon of the Child—the Knowledge & Conversation of the Holy Guardian Angel and the Crossing the Abyss between the divine realms and the human. Expounding on the sublime Formulas of Initiation confronting those who would aspire to these Mysteries, the author draws deeply from Jungian psychology, world mythology and religion, and the doctrines of the classic Mystery traditions, explaining how the revelations of Thelema apply to the individual. *The Angel & The Abyss* is written in clear, precise language that will aid those students who seek to navigate the difficult terrain of this advanced stage of the Spiritual quest. More knowledgeable students will find tantalizing clues to serve as guideposts and eventual confirmations of their direct experience. The book offers copious illustrations including some in full color and numerous diagrams. It features detailed references that encompass ancient Egyptian hieroglyphic texts, the Old and New Testaments, the Apocrypha, Greek philosophy, alchemy, hermetic qabalah, and tarot, as well as the writings of Carl Jung, Eric

Neumann and Aleister Crowley.

Guardian Angel is that rare memoir that grabs you by the shoulders with an urgency that screams, "PAY ATTENTION!" It leaps off the page with an immediacy and relevance that few books achieve. Beginning with her solitary childhood in London, it took years for Melanie Phillips to understand her parents' emotional frailties and even longer to escape from them. But Phillips inherited her family's strong Jewish values and a passionate commitment to freedom from oppression. It was this moral foundation that ultimately turned her against the warped and tyrannical attitudes of the Left, requiring her to break away not only from her parents—but also from the people she had seen as her wider political family. Through her poignant story of transformation and separation, we gain insight into the political uproar that has engulfed the West. Britain's vote to leave the EU, the rise of far-Right political parties in Europe, and the stunning election of US president Donald Trump all involve a revolt against the elites by millions. It is these disdained masses who have been championed by Melanie Phillips in a career as prescient as it has been provocative. Guardian Angel is not only an affecting personal story, but it provides a vital explanation why the West is at a critical crossroads today. "Melanie Phillips has been one of the brave and necessary voices of our time, unafraid to speak the language of moral responsibility in an age of obfuscation and denial. This searing account of her personal journey is compelling testimony to her courage in speaking truth to power." Rabbi Lord Jonathan Sacks
