Students will be given one minute to read a first grade level reading passage. Again, we want the student to correctly read as many words as they can in that minute. When students are able to read fluently, it promotes reading comprehension, which is the ultimate goal. We want their reading to flow and sound like talking, not like a robot.

Given the change in federal legislation allowing the consideration of a Response-To-Intervention (RTI) approach to making eligibility decisions for specific learning disabilities (IDEIA, 2004), it is crucial to establish sufficient evidence for using curriculum-based measurements (CBM) or CBM-like measures (e.g., Dynamic Indicators of Basic Early Literacy Skills; DIBELS) for monitoring students' responses to interventions as part of the identification process for Specific Learning Disabilities. One critical component in an effective RTI model is the availability of parallel measures suited for frequent progress monitoring to index student performance over time. The current study investigated the equivalence of the twenty first grade DIBELS Oral Reading Fluency (DORF) progress monitoring probes' using a one-way ANOVA for repeated-measures. Participants were 68 first grade students (36 females and 32 males) from two Midwestern elementary schools. No selection criteria other than parental consent were used. The DORF probes were given in a pseudo-counterbalanced order across four days at the end of the school year to avoid instruction and practice effects. The standard error of measurement (SEM) of the twenty first grade DORF progress monitoring probes was calculated using alternate form reliability coefficients. Results suggested that the equivalence assumption of the first grade DORF was not held. Most of the probes were significantly different in their difficulty level from each other and did not yield consistent mean levels of performance. The findings also suggested a significant magnitude of score fluctuation at the individual student level. The average SEM value was about 9 (ranging from 8 to 10), similar to previous research findings using test-retest reliability for calculation. Limitations, educational implications for CBM ORF users and researchers, and directions for future research are presented.

"This prevention-oriented assessment for the growth and development of literacy skills will help you easily identify students in need of intervention and accurately evaluate the effectiveness of intervention strategies. DIBELS is designed for ongoing use to measure foundational skills and progress in reading; predict later reading success and performance on high-stakes tests; and provide an instructional goal that will prevent reading failure and promote reading success."--Publisher's web site.

This book introduces a comprehensive RTP Model that reframes research to practice knowledge and inclusive education philosophy to promote the sustained use of research to promote and enhance meaningful education for all students.

At his new school, Jerry Flack is determined to stop being a dork and start being a cool guy—but does this science nerd really have what it takes to be popular? Jerry Flack is starting middle school in a new town where no one knows him and he can be anybody he wants. Jerry has a plan: He is finally going to be cool. But that turns out to be easier said than done. As his lies begin to pile up, Jerry knows he 's going to slip up soon, and everyone will see him for who he really is. Can Jerry keep the act going? Or is it possible that a dork can actually be . . . well, cool?

Accompanying CD-ROM contains ... "numerous reproducible and customizable forms, surveys, and screening tools, as well as an annotated list of resources for charting and monitoring individual student and classroom progress."--P. [4] of cover.

Improve students' reading fluency while providing fun and purposeful practice and performance through Reader's Theater Scripts. Engage students through Reader's Theater to make learning fun while building knowledge of Texas history and the significant people, events, and places that make Texas what it is today. Improve vocabulary and comprehension with repeated practice and performance of the scripts along with TEKS-based activities in the lesson plans, which include word study, comprehension questions, and extension activities. Make your classroom a Reader's Theater classroom today!

Offers two distinct approaches to oral reading instruction that can be incorporated into primary-grade literacy curricula and includes lesson plan ideas, vignettes and examples, and reproducibles.

In Teaching Struggling Students in Mathematics, Too Many Grades of D or F, Bill Hanlon provides examples and recommends highly effective and practical instructional and assessment strategies that classroom teachers can immediately implement and that school administrators can readily observe. These high yield strategies build on accepted practices and directly address the needs of struggling students.

Learn at home with help from the education experts at The Princeton Review! 2ND GRADE AT HOME provides simple, guided lessons and activities that parents can use to help keep 2nd graders on track this year. Anxious about remote learning and hybrid schooling? Worried that the unique circumstances around coronavirus and education might keep your child from getting the help they need in class this year? Want to help support your child's schooling, but not sure where to start? You're not alone! 2ND GRADE AT HOME is a parent guide to supporting your child's learning, with help you can undertake from home. It provides: · Guided help for key 2nd grade reading and math topics · Skills broken into short, easy-to-accomplish lessons · Explanations for parents, plus independent question sets for kids · Fun at-home learning activities for each skill that use common household items · Parent tips, review sections, and challenge activities seeded throughout the book The perfect mix of parent guidance, practical lessons, and hands-on activities to keep kids engaged and up-to-date, 2ND GRADE AT HOME covers key grade-appropriate topics including: · early reading comprehension · context & understanding · event order · fiction & nonfiction · place value · addition and subtraction · multiplication · patterns and shapes · charts & graphs · likelihood ... and more!
