CONFIDENTIAL AND PROPRIETARY

LATEX is the standard mathematical typesetting program. This document is for people who have never used LATEX before and just want a quick crash course to get started. I encourage all students in mathematics and theoretical computer science to learn LATEX so you can use it to typeset your problem sets; your TA ' s will love you if you do.

[LaTeX - Art of Problem Solving](#)

An online LaTeX editor that's easy to use. No installation, real-time collaboration, version control, hundreds of LaTeX templates, and more.

~~Documentation – Overleaf, Online LaTeX Editor~~

LATEX (pronounced lay-tek) is a document preparation system for producing professional-looking documents, it is not a word processor. It is particularly suited to producing long, structured documents, and is very good at type- setting equations. It is available as free software for most operating systems.

~~LATEX for Beginners Workbook Edition 5, March 2014 ...~~

Latex, or (pronounced lah-TEK or lay-TEK), is a typesetting markup language that is useful to produce properly formatted mathematical and scientific expressions. Using LaTeX in the Community, the AoPSWiki, or the Classroom If you starting and looking to learn more about what can do, see this non-technical introduction on.

~~Art of Problem Solving~~

The basic layout of a LaTeX file Creating documents with LaTeX is simple and fun. In contrast to Word, you start off with a plain text file (.tex file) which contains LaTeX code and the actual content (i.e. text). LaTeX uses control statements, which define how your content should be formatted.

LaTeX deals with the + and - signs in two possible ways. The most common is as a binary operator. When two maths elements appear on either side of the sign, it is assumed to be a binary operator, and as such, allocates some space to either side of the sign.

~~LaTeX/Mathematics – Wikibooks, open books for an open world~~

Latex interactive guide Within the last year someone posted on a thread, it wasn't the main thread subject I think, a very useful seeming table of Latex which I think was interactive or semi-interactive. I thought note that and didn't and now can't find it. It would be useful to me right now, and think it would be useful to many others.

~~Latex guide interactive | Physics Forums~~

Short Math Guide for LATEX, version 2.0 (2017/12/22) 3 1. Introduction This is a concise summary of recommended features in LATEX and a couple of extension packages for writing math formulas. Readers needing greater depth of detail are referred to the sources listed in the bibliography, especially [Lam], [AMUG], and [LFG].

~~Short Math Guide for LATEX – CTAN~~

Latex as found in nature is a milky fluid found in 10% of all flowering plants (angiosperms). It is a complex emulsion consisting of proteins, alkaloids, starches, sugars, oils, tannins, resins, and gums that coagulate on exposure to air. It is usually exuded after tissue injury.

~~Latex – Wikipedia~~

LaTeX is free software under the terms of the LaTeX Project Public License (LPPL). LaTeX is distributed through CTAN servers or comes as part of many easily installable and usable TeX distributions provided by the TeX User Group (TUG) or third parties. If you run into trouble, visit the help section.

~~Get LaTeX – Mac OS, Windows, Linux~~

LaTeX symbols have either names (denoted by backslash) or special characters. They are organized into seven classes based on their role in a mathematical expression. This is not a comprehensive list. Refer to the external references at the end of this article for more information.

~~List of LaTeX symbols | LaTeX Wiki | Fandom~~

themes, on the user ' s guide, on features of the class, on the internals of the implementation, on special LATEX features, and on life in general. A small selection of these people includes (in no particular order and I have surely forgotten to name lots of people who really, really deserve being in this list): Carsten (for everything),

~~The beamer class – CTAN~~

Few books guide you through the process of "designing" a LaTeX document, making small steps from a simple text to a complete report, and this is a nice example. It is very well-written, and it is very easy to follow. With its exercises, it is just like a class about LaTeX.
