The Joint Association of Classical Teacher's Greek Course Reading Greek has been written for beginners in the upper school, at the university and in adult education. Its aim is to enable students to read fifth-and fourth-century Attic Greek, Homer and Herodotus, with some fluency and intelligence in one to two years. The main medium of learning is a continuous, graded Greek text, adapted from original sources, coupled with a grammar, vocabulary and exercise book which runs in phase with the text.

Includes selections from Xenophon, Antiphon and Euripides.

First published in 1978 and now thoroughly revised, Reading Greek is a best-selling one-year introductory course in ancient Greek for students of any age. It combines the best of modern and traditional language-learning techniques and is used in schools, summer schools and universities across the world. The Teachers' Notes to Reading Greek are intended to help teachers at school, at university and in adult education to use the course to their best advantage. They do not tell the teacher what to do but describe the practice of experienced users of the course and offer suggestions for tactics to adopt, including advice on matters such as lesson planning, year-plans and potential examination papers. This volume of notes has been thoroughly updated to match the revised edition of the course.

This guide contains notes on the Greek texts that appear in the Text volume; translations of all the texts; answers to the exercises in the Grammar, Vocabulary and Exercises volume as well as cross references to the relevant fifth-century B.C. background in The World of Athens.
