Stephen King's legendary debut, the bestselling smash hit that put him on the map as one of America's favorite writers "Gory and horrifying You can't put it down." —Chicago Tribune Unpopular at school and subjected to her mother's religious fanaticism at home, Carrie White does not have it easy. But while she may be picked on by her classmates, she has a gift she's kept secret since she was a little girl: she can move things with her mind. Doors lock. Candles fall. Her ability has been both a power and a problem. And when she finds herself the recipient of a sudden act of kindness, Carrie feels like she's finally been given a chance to be normal. She hopes that the nightmare of her classmates' vicious taunts is over . . . but an unexpected and cruel prank turns her gift into a weapon of horror so destructive that the town may never recover.

After an almost fatal car crash, novelist Paul Sheldon finds himself being nursed by a deranged fan who holds him captive.

In this spectacular New York Times bestselling father/son collaboration that "barrels along like a freight train" (Publishers Weekly), Stephen King and Owen King tell the highest of high-stakes stories: what might happen if women disappeared from the world of men? In a future so real and near it might be now, something happens when women go to sleep: they become shrouded in a cocoon-like gauze. If they are awakened, if the gauze wrapping their bodies is disturbed or violated, the women become feral and spectacularly violent. And while they sleep they go to another place, a better place, where harmony prevails and conflict is rare. One woman, the mysterious "Eve Black," is immune to the blessing or curse of the sleeping disease. Is Eve a medical anomaly to be studied? Or is she a demon who must be slain? Abandoned, left to their increasingly primal urges, the men divide into warring factions, some wanted to kill Eve, some to save her. Others exploit the chaos to wreak their own vengeance on new enemies. All turn to violence in a suddenly all-male world. Set in a small Appalachian town whose primary employer is a woman's prison, Sleeping Beauties is a wildiy provocative, gloriously dramatic father-son collaboration that feels particularly urgent and relevant today.

Set in the fictional town of Castle Rock, Maine A #1 New York Times bestseller about a man who wakes up from a five-year coma able to see people's futures and the terrible fate awaiting mankind—a "compulsive page-turner" (The Atlanta Journal-Constitution), Johnny Smith awakens from a five-year coma after his car accident and discovers that he can see people's futures and pasts when he touches them. Many consider his talent a gift; Johnny feels cursed. His fiancée married another man during his coma and people clamor for him to solve their problems. When Johnny has a disturbing vision after he shakes the hand of an ambitious and amoral politician, he must decide if he should take drastic action to change the future. With "powerful tension that holds the reader to the story like a pin to a magnet" (The Houston Post), The Dead Zone is a "faultlessly paced...continuously engrossing" (Los Angeles Times) novel of second sight.

Roberta Anderson, while searching for firewood in the forest, stumbles upon a buried ship and with the help of her onetime lover, Jim Gardener, excavates an artifact that changes the townspeople of Haven.

Master storyteller Stephen King presents the classic "wondrously frightening" (Publishers Weekly) #1 New York Times bestseller about a writer's horrific and haunting pseudonym. "I'm back...I'm back from the dead and you don't seem glad to see me at all, you ungrateful son of a bitch." After thirteen years of international bestseller stardom with his works of violent crime fiction, author George Stark is officially declared dead—revealed by a national magazine to have been killed at the hands of the man who created him: the once well-regarded but now obscure writer Thad Beaumont. Thad's even gone so far as to stage a mock burial of his wildly successful pseudonym, complete with tombstone and the epitaph "Not a Very Nice Guy." Although on the surface, it seems that Thad can finally concentrate on his own novels, there's a certain unease at the prospect of leaving George Stark behind. But that's nothing compared to the horror about to descend upon Thad's new life. There are the vicious, out-of-control nightmares, for starters. And how is he able to explain the fact that everyone connected to George Stark's untimely demise is now meeting a brutal end of their own in a pattern of homicidal savagery...and why each blood-soaked crime scene has Thad's fingerprints all over it? Thad Beaumont may have once believed that George Stark was running out of things to say, but he's going to find out just how wrong he is...
