This text describes the functions that the BIOS controls and how these relate to the hardware in a PC. It covers the CMOS and chipset set-up options found in most common modern BIOSs. It also features tables listing error codes needed to troubleshoot problems caused by the BIOS.

Provides suggestions for lighting every room in the house, including step-by-step wiring and installation instructions.

This text defines what constitutes cosmeceuticals and discusses various classes of products, from anti-ageing skin care and repair, anti-acne, and hair-growth compounds to agents for treating skin infections, rashes and irritations.

Ever wondered what happens to us as we die? Or how the Esky became an Aussie cultural icon? Or why we have leap years? Then look no further - and even if you haven't wondered, you'll want to find out. This anthology is a diverse collection of explainers by some of the finest writers from The Age and The Sydney Morning Herald. It tackles quintessentially Australian topics (where does the term 'mate' come from?) as well as questions being grappled with around the world (what will our homes be powered by in the future?). Inquisitive readers love the explainer columns for their strong and surprising storytelling, deeply researched reporting and inventive illustrations. They have become some of the most popular content articles in The Age and Herald, and

reader requests have inspired explainers about exploring everything from think tanks to tennis racquets, from quantitative easing to why cicadas sing at dusk. Explainers offer a rich understanding of how and why - rather than just who, what, when and where. Within these pages you will find an absorbing and illuminating selection of some of the most popular explainers, as well as never before published pieces especially written for this book. There are surprising facts about all aspects of life and information about all kinds of investigations from throughout history and around the world. Prepare to be enlightened, enthralled and educated - you'll never ponder how to evade that rampaging cassowary again!

A guide to purchasing bargain CDs and cassettes assesses the growing range of products, evaluating different musical interpretations and performances and discussing the quality of the recorded sound. Original.

The Sparidae, commonly known as breams and porgies, is a family of fishes of the order Perciformes, and includes about 115 species of mainly marine coastal fish of high economic value, exploited and farmed for human consumption, as well as for recreational purposes. This landmark publication brings together a huge wealth of information on the

biology and culture of gilthead sea bream and other Sparidae species. Commencing with an overview of the current status of aquaculture of Sparidae, the book continues with comprehensive coverage of the family's phylogeny, evolution and taxonomy, stress and welfare issues, and reproduction and broodstock management. Further chapters include coverage of early development and metabolism, production systems, nutrition, quality, and health management. A final cutting-edge chapter looks at genomic-proteomic research in Sparidae and its application to genetic improvement. With contributions from Europe, the Middle East, Asia, Australasia and North America, carefully drawn together and edited by Professor M. Pavlidis and Dr C. C. Mylonas, themselves well known for their work in this area, Sparidae is an essential purchase for anyone working with this important family of fishes. Fish biologists, fish farmers, aquaculture researchers, and fisheries managers will all find much of great use and interest within this book's covers. All universities and research establishments where biological sciences, aquaculture and fisheries science are studied and taught should have copies of this excellent book on their shelves.
